NIGERIAN JOURNAL OF MICROBIOLOGY

NOTE TO CONTRIBUTORS

The Nigerian Journal of Microbiology (NJM) (ISSN 0794 – 1293) is a purpose driven, peer reviewed (disciplinary/professional) Journal Published by the Nigerian Society for Microbiology. The Journal provides the sieve for the publications of most important and outstanding scientific research in Medical, Environmental, Industrial, Agricultural, Food and other aspects of Microbiology in Nigeria. Its establishment several decades ago is to satisfy the wish and desire of many research conscious microbiologists in the Universities, other higher institutions and industries in Nigeria. It will also provide a platform for the presentation of their research findings and a channel of communication between indigenous research lecturers, policy makers in the field of microbiology and their colleagues in other parts of world. The Journal invites original papers, review articles, technical report and short communications on recent findings in all aspects of microbiology that are not published or not considered for publication elsewhere.

Our Mission

Our mission is to contribute to the advancement of microbiology by providing the platform for original research communication at minimal cost and within the shortest period.

Call for Paper

We encourage you to submit your manuscript to the Nigerian Journal of Microbiology (NSM Journal). It is the objective of the Nigerian Society for Microbiology to use the Journal as a platform for our colleagues in the academic community, public service and industry to showcase their research finding to the international community. Thus, we publish peer reviewed, original and high quality articles, case studies, critical reviews etc in Medical, Environmental, Industrial, Mycology, Public Health and Food Microbiology. Indisputably, the NSM Journal remains the leading publisher of new findings, ideas, state of the art research results and advances in Microbiology in Nigeria. It is the aim of the editorial board of the NSM journal to inform authors of the decision on the manuscript within six weeks of submission. Following acceptance, a paper will be published in the next edition of the journal. We invite you to kindly submit your manuscript(s) as attachment in MS-Word format to njm.nsmjournals@gmail.com or www.nsmjournal.org.ng

The Nigerian Journal of Microbiology welcomes the submission of papers that meets the general criteria of significance and scientific excellence. We publish regular article, short communications and reviews.

NIGERIAN JOURNAL OF MICROBIOLOGY (NJM)

GUIDE TO AUTHORS

Nigerian Journal of Microbiology is published by the Nigerian Society for Microbiology (NSM). It is a purpose driven, peer reviewed (disciplinary/professional) Journal. The Journal provides the sieve for the publications of most important and outstanding scientific research in Medical, Environmental, Industrial, Agricultural, Food, Petroleum and other aspects of Microbiology in Nigeria. Its establishment several decades ago is to satisfy the wish and desire of many research conscious microbiologists in the Universities and other higher institutions in Nigeria. It also provides a platform for the presentation of their findings and a channel of communication between indigenous researchers, lecturers and policy makers in the field of microbiology and their colleagues in other parts of the world. The Journal invites original papers, critical review articles, case studies, technical reports and short communications on recent findings in all aspects of microbiology that are not published or not considered for publication elsewhere.

It is the aim of the Editorial Board of the NJM to inform authors of the decision on their manuscript within six (6) weeks of submission. NJM is a biannual Journal published in June and December.

Instructions for Authors

Preparation of Manuscripts

Type the abstract, text, references, legends and tables double-spaced, the latter two on separate sheets. It is important to leave a margin of at least 1 inch all around on each table.

Abstract: An abstract, not more than 250 words, should precede the introduction. Do not include reference or unfamiliar abbreviations or symbols in the abstract.

Key words: Please provide 4 - 5 keywords or short phrases in alphabetical order.

Editorial style: Be guided by the Council of Biological Editors (CBE) style Manual. Follow Webster's International Unabridged Dictionary as the authority for spelling and hyphenation of words. Avoid breaking words at the end of lines. System International(s) or modern metric units are used. Non abbreviations should be defined at first mention.

Standard abbreviations (refer to CBE Manual) do not require definition.

Copyright: In conformity with copyright laws, authors will be required to sign a 'Copyright Transfer Agreement' upon acceptance of manuscript for publication. The agreement form will be included in the letter communicating the reviewer's comments. The agreement will protect authors against misappropriation of their published work.

Figures: Graphs and charts should be prepared in a consistent style, including lettering and numbering. Pictures, photographs, charts and tables or graphs should come in the body of the work before references. Pictures can be pasted or superimposed appropriately. Abbreviate Fig. Drawings made with computer are also accepted and are preferred so that the content of a whole manuscript could be stored on a CD ROM. Pictures submitted in colour will attract a higher charge.

Tables: Each table should have a brief descriptive title. Do not include explanatory material in title: use footnotes, keyed with lower case letters at the bottom of the table. Use no vertical rules and underscore nothing that is not to be printed in italics.

Horizontal rules should be placed one-half space or more below a typed line. Define all data in column heads with appropriate units or descriptions. Explanations can be given in

footnotes keyed with lower case letters. Plan your tables to be no wider than 66 characters, including spaces, or 11 cm wide when printed. Tables should be numbered consecutively with Arabic numerals.

Title page: Short titles beginning with words that identify the subject are preferred for indexing and information retrieval purposes. The title page; should include the name(s) of author(s), professional affiliation, and the complete address of the author to whom correspondence and proofs be sent (includes the e-mail and phone numbers please). If the title exceeds 45 letters, provide a shorter running title.

Italics: Italics should be used for the titles of books and journals and for certain Latin and other phrases such as *ab initio*, *ad hoc*, *circa*, *et al.*, *in situ*. However, many other imported phrases have become naturalized and are printed in roman characters, ego Per annum, per capita, pro rata, status quo, versus, via. The word species or its abbreviations sp (singular) and spp. (plural) should not be italicized. Binomial Latin names of microorganisms, plants and animals are printed in italics, with the generic name having an initial capital, e.g. *Bacillus cereus*, *Daphnia magna*, *Pistia stratiotes*.

References: Literature citations in the text should be by name(s) and year. A complete listing in alphabetical order should appear at the end of the text. Titles, of journals, should be abbreviated according to the International List of Periodical Title Word Abbreviation (or see list in Chemical Abstract Service Source Index, CA SI). Excluded from this listing are references to, abstracts, unpublished data, personal communications, and manuscripts in preparation, or submitted for publication. Reference to such sources should appear parenthetically in text.

Examples of reference citations follow.

Nwaugo, V.O., Onyagba. R.A., Akubugwo, I.E. and Ugbogu, O.C. (2008). Soil bacterial flora and enzymatic activities in heavy metal Pb and Zn contaminated soil of Ishiagu, Ebonyi State. *Biokemistri* 10(2):77-84.

Akinyosoye, F, A., Arotupin, D. J. and Olalemi, A.S. (2011). Effect of refined petroleum products contamination on fungal population and morphology of Cowpea (*Vigna unguiculata* (L) Walp) cultivated on agricultural soil sample. *African Journal of Environmental Science* 4: 15 - 19.

Mohammed, M. D. (2005), *Research Methods in Agricultural and Biological Sciences*. Consolidated Publishing Company, Kaduna P.376.

Submission of Manuscripts: Submission of manuscript implies that it is not being considered contemporaneously for publication elsewhere. Contributors should submit their manuscripts in good English as an attachment in MS – Word format to the Editor-in-Chief via njm.nsmjournals@gmail.com

FOR ENQUIRIES ONLY

Editor – in – Chief

Prof. S.A. Ado (editor.nsmjournals@gmail.com)

Associate Editors

Dr Aminu Bukar – North (north.nsmjournals@gmail.com)

Dr. Vincent N. Chigor – East (east.nsmjournals@gmail.com)

Dr. O.M. David – West (west.nsmjournals@gmail.com)

Business Manager

Prof. J.D. Mawak (manager.nsmjournals@gmail.com)

Note: authors should contact the Editor – in – Chief, Business Manager or the Associate Editor within his/her region for information

Submission of corrected manuscript: Upon acceptance of an article for publication, the author is expected to effect all corrections highlighted by the reviewers. The corrected paper should be submitted back to the Editor – in – Chief. This should be done on line but authors are encouraged to backup the submission of the final version of their manuscript as a soft copy in CD ROM and a hard copy in Microsoft word. The file name on the CD should correspond exactly with the hard copy. It is recommended that the electronic copies of text should be in Microsoft Word with font size 12 and font type Times New Roman.

Page charges

Processing fee of N5,000 (\$20) is to be paid at the point of article submission. There is a publication and handling charge of N15,000 (\$80) per accepted article. For overseas authors, they should pay the sum total after acceptance of their paper for publication.

A copy of the journal issue in which a contributed paper is published will be supplied free of charge to the corresponding author.

For purchase of the Journal, contact the Business Manager

Prof. John D. Mawak (manager.nsmjournals@gmail.com)

A Journal copy cost N2,000.00 excluding postage/handling charges

NOTE: All payments should be made to Diamond Bank, account no: 0092778624, Account name: Nigerian Journal of Microbiology

Detection of Amyolytic Bacteria from Starch-Based Agro Wastes and Optimisation of Culture Conditions for Enhanced Production of Extracellular Amylase Sunday Babatunde Akinde, Deborah Adepeju Ojewande and Janet Olubukola Olaitan	4344 - 4356
Hygiene Status of Disinfecting Solutions Used in Floor Cleaning of Five Selected Hospitals in Ogun State, South Western, Nigeria Banjo, O.A., Egberongbe, H.O. and Onajobi, I.B.	4357 - 4363
Incidence of Mycoflora and Mycotoxin Contamination in Pupuru; a locally Fermented Cassava Flour Sold in Okitipupa, Ondo State, Nigeria Adeyemo, I.A. and Olaribigbe, O.	4367 - 4372
Production of Bacteriocins by <i>Lactobacillus plantarum</i> and <i>Pediococcus acidilactici</i> Isolated from Cow Milk Anumudu, Christian K., Ikimi, Charles G., Zige, Douye Victor, Omeje, Faith I. and Gbodo, Edoama E.	4373 - 4379
Risk Factors Associated with <i>Tinea capitis</i> among Pupils in Lagos, Ekiti and Ogun States, Nigeria Egwuatu, T. O., Ukhureigbe, O. M., Ojo, S.K.S., Ogeneh, B.O., Osanyinlusi, S.A. and Ajayi, O.E.	4380 – 4386
High Burden of on-Going HSV-1 and -2 Infections in Human Immunodeficiency Virus-Infected Individuals in a Secondary Healthcare Facility in Imo State, Nigeria Udeze A.O, Adeoti O.T, Ogunrinola O.T, and Sule W.F.	4387 - 4396
The Role of MTBDR <i>plus</i> ver 2.0 in the Detection of Drug Resistant-Tuberculosis in Smear-Negative Pulmonary Tuberculosis in Kano, Nigeria Abubakar D. Tukur., Aishatu I. Aminu., Abdulhadi K. Sale., Jamiu O. Olabamiji., Umar A. Aliyu., Aminu M. Bashir., Bashir R. Usaini., Murtala Rabiu., and Nafisatu Bello	4397 – 4402
Investigation of <i>Escherichia coli</i> Distribution in Drinking Water Wells Close to Septic Tanks in Densely Populated Areas of Osogbo, Osun State, Nigeria Adeyemi F.M., Akinde S.B., Oyedara O.O., Wahab A.A. and Jimoh S.O.	4403 - 4414
Microbiological Analysis and Nutritional Constituents of <i>Achatina achatina</i> Subjected to various Cooking Methods Akpomie, O.O., Akponah, E., Onoharigho, I., Isiakpere, O.P. and Adewuyi, I. S.	4415 - 4422
Assessment of Biodegradation Potential on Different Soil Particles Yahaya, S. and Bappa, A.M.	4423 - 433
Detection of Chikungunya Virus among Febrile Patients in Lagos Ayolabi, Christianah Idowu, Ibemgbo, Sylvester Agha, Olusola, Babatunde Adebisi, Rasaq, Muinat Busayo, Oriyomi, Babatunde Lawal	4434 - 4441
Synergistic Effect of some Selected Antibiotics with <i>Terminalia catappa</i> Leaves Extract against the Multi-Drug Resistant ETEC Isolated from Vegetables Sold within Kano metropolis, Kano State, Nigeria Shamsuddeen, U., Gurama, A. G. and Dahiru, A. T.	4442 - 4449
Seroprevalence of Measles Specific IgG Antibody among Children in Adamawa State Nigeria Isa, H., Ja'afaru, M. I., Bashir, M. and Suleiman, Y. A.	4450 - 4454
Thermal Adaptation and Inactivation of Vegetable and Environmental isolates of <i>Listeria monocytogenes</i> in Fish Soup Model Ogechukwu P. Onwuazor and Jerry Obeta Ugwuanyi	4455 - 4464
Occult Hepatitis B Virus Infection in Previously Screened Blood from Blood Banks in Kaduna Metropolis Jolayemi Bashir A.D., Abdulsalami, M.S. and Egbe N.E.	4463 - 4473
Effects of Fermentation on the Nutritional and Anti-Nutritional Components of Cooked/Boiled Water Melon (<i>Citrullus lanatus</i>) Seed Makinde, O.A.	4474 - 4484

Mycoremediation of Benzene, Toluene, Ethyl benzene and Xylene (BTEX) Compounds by Fungi Isolated from Hydrocarbon-contaminated Soil Usman, N., Tijjani, M.B. and Atta, H.I.	4485 – 4492
Effects of Microbial Fermentation on Cyanide Contents and Proximate Composition of Cassava Tubers Obi, C. N. and Ugwu, C. J.	4493 - 4502
Methicillin-Resistant <i>Staphylococcus aureus</i> Colonization in Egg – laying Chickens and Poultry Workers in Selected Farms in Odeda Local Government Area, Ogun-state, Nigeria Adejare R. Oloyede, Adediwura O. Arowosegbe and Ayomikun E. Aderounmu	4403 - 4511
Prevalence of Dengue Virus Antibody among Residents of a Rural Community in Southwestern, Nigeria Okoror, L. E., Osanyinlusi S. A., Ukhureigbe O.M and Udenze, D. O.	4412 – 4517
Eggshell Wastes as Potential Protein Supplement in the Production of Cellulase by <i>Pseudomonas aeruginosa</i> and <i>Bacillus cereus</i> Olukunle, Oluwatoyin Folake and Falayi, Micheal Abiodun	4518 - 4528
Evaluation of Bacterial Load and Occurrence of enterotoxigenic coagulase Positive <i>Staphylococcus aureus</i> in ready-to-eat foods sold in Benin City. Oshoma C.E., Igwenwanne A.E. and Omorotionwan B.B.	4529 - 4538
Phytochemicals Screening and Antibacterial activity of Ethanolic leaf extracts of <i>Terminalia catappa</i> on some clinical bacterial isolates Gurama, A. G., Shamsuddeen., U. Dahiru, A. T.	4539 – 4544
Parasitological Analysis of Vegetables Grown by Urban Farmers in Lagos State, Nigeria Olusegun-Joseph, Taiye Shade., Akande, David .O. and Izuka, Lilian	4545 – 4550
Phytochemical Screening and Antibacterial Efficacy of Apiary Honey on some bacteria isolated from Diabetic Foot Ulcer Unegbu Nnachetam Valentine, Nwachukwu Obiora Ndubuisi, Obum-Nnadi Charity Ndidi, Nkwoemeka Ndidi Ethel, Emmanuel Nnabuike Ugbo, Egwuatu Pius Ikenna	4551 - 4558
Biosorption of Copper (II) ions in Aqueous Solution using Biomass of <i>Fusarium equiseti</i> KR706303 isolated from Mangrove soil environment Wahab Abideen Akinkunmi, Awang Ahmad Sallehin Awang Husaini, Adeyemi Folasade Muibat	4559 - 4570
Seroprevalence of <i>Helicobacter pylori</i> Infection among Pregnant Women Attending Antenatal Clinic at Yusuf Dantsoho Memorial Hospital, Kaduna	4571 – 4577
Bioremediation of Lead (Pb) by using <i>Aspergillus terreus</i> Isolated from Polluted Soil Usman U. Zango., Tijjani, M. B. and Anil K. Sharma	4578 – 4586
Phenotypic Characterization of <i>Staphylococcus species</i> isolated from cases of bovine mastitis in parts of Plateau State, Nigeria Suleiman, A. B., Makolo, D., Ahmad, A.E., Tahir, M. I. and Dikwa, K. B.	4587 - 4596
Microbial Freshwater Pollution and the Associated Risks Vincent N. Chigor, Chizoba A. Ozochi and Veronica J. Umoh	4597 – 4610
Association of Anaerobic Bacteria with Surgical Site Infections: A Review Kumurya, A. S., Yusuf, A.A. and Umar, S.G.	4611 - 4618
Prevalence of Asymptomatic Bacteriuria among Pregnant Women seen at a Tertiary Hospital in Northern Nigeria Ige, O.T., Mohammed-Durosinlorun A., Ige, S.O. and Jimoh, O.	4619 - 4625
Bacterial Agents Associated with Health Care Associated Infections in Some Selected Tertiary Hospital of Kano Metropolis, Northwest Nigeria Alkali, B., Agwu, E, Sarkinfada, F., Idris, A. M. and Takalmawa, H. U.	4626 - 4632
Nutritional and Sensory Evaluation of Soy-Yoghurt Produced with <i>Lactobacillus plantarum</i> Isolated from Locally Fermented Milk (<i>Nono</i>) Bukar, A. and Salami-Suleiman, F.A.	4633 - 4644
