# NIGERIAN JOURNAL OF MICROBIOLOGY

## NOTE TO CONTRIBUTORS

The Nigerian Journal of Microbiology (NJM) (ISSN 0794 – 1293) is a purpose driven, peer reviewed (disciplinary/professional) Journal Published by the Nigerian Society for Microbiology. The Journal provides the sieve for the publications of most important and outstanding scientific research in Medical, Environmental, Industrial, Agricultural, Food and other aspects of Microbiology in Nigeria. Its establishment several decades ago is to satisfy the wish and desire of many research conscious microbiologists in the Universities, other higher institutions and industries in Nigeria. It will also provide a platform for the presentation of their research findings and a channel of communication between indigenous research lecturers, policy makers in the field of microbiology and their colleagues in other parts of world. The Journal invites original papers, review articles, technical report and short communications on recent findings in all aspects of microbiology that are not published or not considered for publication elsewhere.

### **Our Mission**

Our mission is to contribute to the advancement of microbiology by providing the platform for original research communication at minimal cost and within the shortest period.

### **Call for Paper**

We encourage you to submit your manuscript to the Nigerian Journal of Microbiology (NSM Journal). It is the objective of the Nigerian Society for Microbiology to use the Journal as a platform for our colleagues in the academic community, public service and industry to showcase their research finding to the international community. Thus, we publish peer reviewed, original and high quality articles, case studies, critical reviews etc in Medical, Environmental, Industrial, Mycology, Public Health and Food Microbiology. Indisputably, the NSM Journal remains the leading publisher of new findings, ideas, state of the art research results and advances in Microbiology in Nigeria. It is the aim of the editorial board of the NSM journal to inform authors of the decision on the manuscript within six weeks of submission. Following acceptance, a paper will be published in the next edition of the journal. We invite you to kindly submit your manuscript(s) as attachment in MS-Word format to [njm.nsmjournals@gmail.com](mailto:njm.nsmjournals@gmail.com) or [www.nsmjournal.org.ng](http://www.nsmjournal.org.ng)

The Nigerian Journal of Microbiology welcomes the submission of papers that meets the general criteria of significance and scientific excellence. We publish regular articles, short communications and reviews.

## **NIGERIAN JOURNAL OF MICROBIOLOGY (NJM)**

Nigerian Journal of Microbiology is published by the Nigerian Society for Microbiology (NSM). It is a purpose driven, peer reviewed (disciplinary/professional) Journal. The Journal provides the sieve for the publications of most important and outstanding scientific research in Medical, Environmental, Industrial, Agricultural, Food, Petroleum and other aspects of Microbiology in Nigeria. Its establishment several decades ago is to satisfy the wish and desire of many research conscious microbiologists in the Universities and other higher institutions in Nigeria. It also provides a platform for the presentation of their findings and a channel of communication between indigenous researchers, lecturers and policy makers in the field of microbiology and their colleagues in other parts of the world. The Journal invites original papers, critical review articles, case studies, technical reports and short communications on recent findings in all aspects of microbiology that are not published or not considered for publication elsewhere.

It is the aim of the Editorial Board of the NJM to inform authors of the decision on their manuscript within six (6) weeks of submission. NJM is a biannual Journal published in June and December.

### **Instructions for Authors**

#### **Preparation of Manuscripts**

Type the abstract, text, references, legends and tables double-spaced, the latter two on separate sheets. It is important to leave a margin of at least 1 inch all around on each table.

**Abstract:** An abstract, not more than 250 words, should precede the introduction. Do not include reference or unfamiliar abbreviations or symbols in the abstract.

**Key words:** Please provide 4 – 5 keywords or short phrases in alphabetical order.

**Editorial style:** Be guided by the Council of Biological Editors (CBE) style Manual. Follow Webster's International Unabridged Dictionary as the authority for spelling and hyphenation of words. Avoid breaking words at the end of in es. System International(s) or modern metric units are used. Non abbreviations should be defined at first mention.

Standard abbreviations (refer to CBE Manual) do not require definition.

**Copyright:** In conformity with copyright laws, authors will be required to sign a 'Copyright Transfer Agreement' upon acceptance of manuscript for publication. The agreement form will be included in the letter communicating the reviewer's comments. The agreement will protect authors against misappropriation of their published work.

**Figures:** Graphs and charts should be prepared in a consistent style, including lettering and numbering. Pictures, photographs, charts and tables or graphs should come in the body of the work before references. Pictures can be pasted or superimposed appropriately. Abbreviate Fig. not allowed. Drawings made with computer are also accepted and are preferred so that the content of a whole manuscript could be stored on a CD ROM. Pictures submitted in colour will attract a higher charge.

**Tables:** Each table should have a brief descriptive title. Do not include explanatory material in title: use footnotes, keyed with lower case letters at the bottom of the table. Use no vertical rules and underscore nothing that is not to be printed in italics.

Horizontal rules should be placed one-half space or more below a typed line. Define all data in column heads with appropriate units or descriptions. Explanations can be given in footnotes keyed with lower case letters. Plan your tables to be no wider than 66 characters, including spaces, or 11 cm wide when printed. Tables should be numbered consecutively with Arabic numerals.

**Title page:** Short titles beginning with words that identify the subject are preferred for indexing and information retrieval purposes. The title page; should include the name(s) of author(s), professional affiliation, and the complete address of the author to whom

correspondence and proofs be sent (includes the e-mail and phone numbers please). If the title exceeds 45 letters, provide a shorter running title.

**Italics:** Italics should be used for the titles of books and journals and for certain Latin and other phrases such as *ab initio*, *ad hoc*, *circa*, *et al.*, *in situ*. However, many other imported phrases have become naturalized and are printed in roman characters, *ego*, *Per annum*, *per capita*, *pro rata*, *status quo*, *versus*, *via*. The word species or its abbreviations *sp*(singular) and *spp.* (plural) should not be italicized. Binomial Latin names of microorganisms, plants and animals are printed in italics, with the generic name having an initial capital, e.g. *Bacillus cereus*, *Daphnia magna*, *Pistia stratiotes*.

**References:** Literature citations in the text should be by name(s) and year. A complete listing in alphabetical order should appear at the end of the text. Titles, of journals, should be abbreviated according to the International List of Periodical Title Word Abbreviation (or see list in Chemical Abstract Service Source Index, CA SI). Excluded from this listing are references to, abstracts, unpublished data, personal communications, and manuscripts in preparation, or submitted for publication. Reference to such sources should appear parenthetically in text. Examples of reference citations follow.

Nwaugo, V.O., Onyagba. R.A., Akubugwo, I.E. and Ugbogu, O.C. (2008). Soil bacterial flora and enzymatic activities in heavy metal Pb and Zn contaminated soil of Ishiagu, Ebonyi State. *Biokemistri* 10(2):77-84.

Akinyosoye, F. A., Arotupin, D. J. and Olalemi, A.S. (2011). Effect of refined petroleum products contamination on fungal population and morphology of Cowpea (*Vigna unguiculata* (L) Walp) cultivated on agricultural soil sample. *African Journal of Environmental Science* 4: 15 - 19.

Mohammed, M. D. (2005), *Research Methods in Agricultural and Biological Sciences*. Consolidated Publishing Company, Kaduna P.376.

**Authors should ensure maximum number of pages should not exceed 14 A4 Double spaced pages with margin 1 top and bottom and 1.25 left and right. Extra pages attract extra charges**

### **Plagiarism Policy**

The journal's acceptable maximum **similarity index (SI)** after plagiarism check is **12%**. Author(s) with SI between **13 to 30%** will be advised to review their manuscript(s) to bring the SI to **12% or below**. Manuscript(s) with **SI of 30% and above** shall be outrightly rejected. The plagiarism check shall exclude items that rarely contribute to similarity index such as **authors' names and addresses, Tables, Figures, Plates and References**. Where sentences and paragraphs are lifted from published and other sources and placed in the manuscript especially in the **Introduction, Results, Discussion and Conclusion** without putting them in quotes and acknowledging the sources, the manuscript shall be returned to the author(s) to rework in order to bring down the SI to **12% or below**. Where the high matches are in the **Methodology**, the Editorial Committee shall determine if they are procedures or protocols that are universally similar in translation/interpretation and author(s) shall not be penalized.

Authors are advised to check the SI of their manuscripts using the free version of the Journal's plagiarism checker (Quetext) at <http://www.quetext.com> before submission to NJM.

**Submission of Manuscripts:** Submission of manuscript implies that it is not being considered contemporaneously for publication elsewhere. Contributors should **submit** their manuscripts in good English as an attachment in MS – Word format to the Editor-in-Chief via [njm.nsmjournals@gmail.com](mailto:njm.nsmjournals@gmail.com)

## **FOR ENQUIRIES ONLY**

### **Editor – in – Chief**

Prof. D. J. Arotupin (editor.nsmjournals@gmail.com)

### **Deputy Editor – in - Chief**

Prof. V. N. Chigor (njm.nsmjournals@gmail.com)

### **Business Manager**

Prof. C. J. Ogugbe (manager.nsmjournals@gmail.com)

Note: Authors should contact the Editor – in – Chief, Business Manager or the Deputy Editor – in – Chief for information

**Submission of corrected manuscript:** Upon acceptance of an article for publication, the author is expected to effect all corrections highlighted by the reviewers. The corrected paper should be submitted back to the Editor – in – Chief. This should be done on line but authors are encouraged to back up the submission of the final version of their manuscript as a soft copy in CD ROM and a hard copy in Microsoft word. The file name on the CD should correspond exactly with the hard copy. It is recommended that the electronic copies of text should be in Microsoft Word with font size 12 and font type Times New Roman.

### **Page charges**

Processing fee of **N6,000 (\$20)** is to be paid at the point of article submission. There is a publication and handling charge of **N35,000 (\$80)** per accepted article. For overseas authors, they should pay the sum total after acceptance of their paper for publication.

A copy of the journal issue in which a contributed paper is published will be supplied free of charge to the corresponding author.

For purchase of the Journal, contact the **Business Manager**

Prof. C. J. Ogugbe (manager.nsmjournals@gmail.com)

A Journal copy cost **N5,000.00** excluding postage/handling charges

**NOTE:** All payments should be made to Access Bank, account no: 0092778624, Account name: Nigerian Journal of Microbiology
